**Mira Craig\* move aside!  
Here's something that'll  
shake your ass!**

Already Taken have just released their debut EP containing six hard-punk-rocking songs! This is addictive stuff, so beware. Once you've heard these fine tunes, there's no turning back!

Already Taken is a band from Halden, Norway. They recently won 2nd place in Norway's national Global of the Bands final and have just returned from a very successful tour of Scandinavia.

Their musical style is somewhat comparable to a mixture of Simple Plan, Blink-182, New Found Glory, Green Day, Millencolin and Good Charlotte, but don't let this fool you into thinking they're just another cover band! Their music and sound are totally unique and on stage **Already Taken** is real eye candy and they deliver the goods to the people – the juicy pop-punk goods!

\* Mira Craig is an Norwegian artist, well known for shaking her ass. Though her ass is really nice, this is kind of an internal Norwegian joke.
