LUST! TERROR! VIOLENCE! RAW NAKED THRILLS!

This is *The Smell of Mutiny*, and now they plan to overthrow the world, using psychedelic beat-rock of the finest brand as the secret weapon in their quest to bring sweet mutinous sounds to the masses! Prepare yourselves for a foot stompin' frenzy with a lethal combo of hard rocking sound and soft melodic harmonies!

The band's sound is a unique blend of the following ingredients ; a pound of *Barry and The Remains*, a cup of sliced *13th Floor Elevators*, a gallon of *The Yardbirds*, a grain of *The Zombies*, two heaped spoons of *Love*, a taste *Of Montreal* and a pinch of *The Brian Jonestown Massacre*.

The Smell of Mutiny (of Oslo, Norway– currently situated in Trondheim) brings the sounds of the past to the future with this seven track compact disc, and on stage they mesmerize their audiences with their howlin` vocals, shakin` rhythm and blues grooves, neatly pressed suites and brightly shined shoes.

The song *Butter Baby* is already featured on an English compilation CD *Soul Like Fire*, released by Rowed Out Records and also featuring other Norwegian bands like *The Heretics* and *The Indikation* – which again was voted number one (#1) for March 2007 on the show *Whole Lotta Shakin`* currently broadcasted on the US radio station WTR-FM.
